The Soundex for the 1910 Cen
for the State of Orego

he letters a
he first letter

Every Soundex number must be a 3-digit number. A name yielding no code numbers as Lee would thus have to be ... one yielding only one code number would have two zeros ... such as Kuhne, coded as K500, and one yielding two code numbers would have two zeros added as Ebell, coded as ... Not more than three digits are used, so Ebelson would be ... E142; not E1423.

When two key letters or equivalents appear together ... the key letter immediately follows or precedes as ... the two are coded as one letter by a single number as ... Kelly coded as K400; Buerck coded as B620; Lloyd coded as ... 300 and Schaefer coded as S160. Klatt would be ... Jackson J250.

If several surnames have the same code, the ... them are arranged alphabetically by given name. There ... divider cards showing most code numbers, but not all ... instance, one divider may be numbered J50 and the next ... J00.

Such prefixes to surnames as "Van", "von", ... "D'", "dela" or "du" are sometimes disregarded ... alphabetizing and coding. Researchers are advised to ... possible spellings of a name.

The following names are examples of Soundex ... are given only as illustrations.

Native American, Orientals, and Religious Nuns

Researchers using the Soundex system to locate religious nuns or persons with American Indian or oriental names should be aware of the way such names were coded. Variations in coding differed from the normal coding system.

Phonetically spelled oriental and Indian names were sometimes coded as if one continuous name, or if a distinguishable surname was given, the names were coded in the normal manner. For example the American Indian name Shinka-Wa-Sa may have been coded as "Shinka" S 520 or Sa (S000). Lee Wan Bow may be found under L 000 or L 510 Researchers should investigate the various possibilities of coding such names.

Religious nun names were coded as if "Sister" was the surname if no surname was given. So Sister Mary Boniface would be coded "S236". but Sister Mary Boniface Moran would be found under M 650 for Moran.

The names of state were abbreviated in the fashion of the modern postal state designations; names of countries are written in total. Other abbreviations used by the census enumerators can be found in Appendix II of the various National Archives' Federal Population Census Catalog
